

# Creature Creator

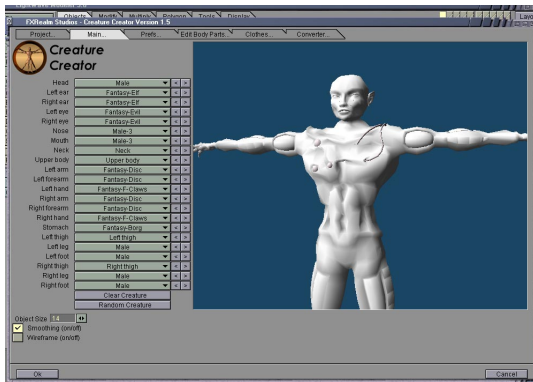

## Your Personal Mad Scientist Lab!

Lightwave 3D version

Creature Creator is a realtime modelling plugin for Lightwave 3D and Inspire 3D.

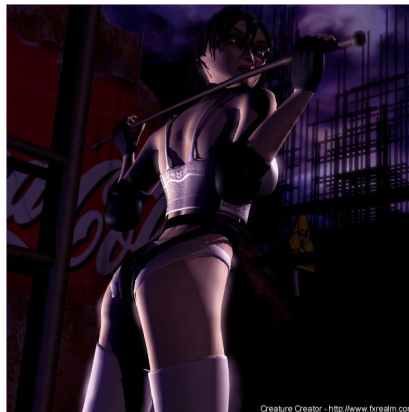

Creating humanoids, aliens, monsters, bugs, and other things that go bump in the night is an easy experience with Creature Creator. Make one-of-a-kind characters for cartoons, fantasy and sci-fi in minutes - by using any of the plugin's library of over 500 pre-defined body parts, which can be tweaked or combined in endless ways for genuine originality. Of course you can also add your own modifications and models to the library to make the possibilities with this plugin endless. If you're serious about your animations, you'll want to add Creature Creator to your toolbox.

Suggested Retail Price is US\$249.

### Renders of characters made with Creature Creator.

Reseller:

*“Creature Creator enables you to easily make 3D versions of the kind of weird and wonderful monsters normally seen lurking in episodes of the X-Files”*

Computer Arts Magazine  
October 1999

#### What are our users saying?

*“First off, congratulations on producing an absolutely amazing plugin. Creature Creator has, in the 2 weeks I've had it, literally saved me a years worth of modeling. I have armies of creatures running through my scenes now, and it only takes minutes to make more!! Truly awesome!!”*

*“I have already purchased Creature Creator and it is one of the best products I have ever seen for character development. It even beats Metacreations Poser 4 in my book.”*

*“I would have three times the work right now if it wasn't for Creature Creator. At this time I use Creature Creator on almost a daily basis.”*

*“I exported my first model the other day. I decided to see what smoothing would do to it and WOW. The model looked great. I find it quite impressive that you created a series of interchangeable body segments, and still managed to maintain everything as metanurbs quads. Very nice. That aside I look forward to playing some more with it, but suffice to say that again, I was impressed.”*

*“Creature Creator has already saved me time in creating monsters, to make a goblin took me less than 24 hours, and thats with texturing and such. Your product is a time saver to say the least. I've been working with 3D for 9 years and I really like your product. I usually had to make my creatures out of splines, a long process. Thank you once again for making this product...”*
